**CAVSA**
GROUP

About Us

The Cavsa Group was founded in Karaman, Turkey, in 2001. To satisfy the needs of local and international apple production, storage, and packaging, our company has a number of facilities.

One of the largest apple orchards in Karaman belongs to our group, which produces premium, green, and cutting-edge agricultural products. Our organization also owns an apple cold storage facility with a capacity of about 30,000 tons, which satisfies Turkey's high storage needs. Our company also owns one of the biggest packaging facilities that creates ready-to-eat boxes, plastic pallets, apple packaging viols, and large plastic container crates. Last but not least, the Cavsa Group owns the Aweta Machine for apple packaging and makes use of it to export its goods.

In all production, sales, and demonstration procedures, our group follows to Turkey's ISO 9001:2015 quality standards. The main priority has always been offering hygienic, affordable, and timely product deliveries. The principles of client satisfaction, ongoing improvement, and staff involvement form the foundation of our management philosophy.

One of our fundamental values is to consistently improve the quality of our products and services for flawless service while also exceeding client expectations in terms of innovation, aesthetics, and ergonomics. Our primary objectives are to expand our business profitably and sustainably, gain market share, and reach more customers in a world that is changing quickly. Being a leading and respected global brand in our sector is Cavsa Group's highest priority and objective.
